

ACCESSORIES

THERMOSTAT

Features	UoM	C16000002
Field of regulation	°C	20-46
Activation differential	K	4.5
Contact capacity with resistive load	A	2.5 - 250V
Dimensions HxWxD	mm	43.5x38x34
Sensitive element	-	Gas bulb
Electrical connection	-	6.3x0.8mm Fastons

C16000002

Thermostat

Thermostat for temperature regulation, with adjustable range of operation between 20 and 46°C. The temperature is read using a gas bulb.
